25X1A

COUNTRY Germany (Russian Zone)

DATE DISTR. 6 June 1949

SUBJECT Names of Personnel in Object 2, Oberschlema

NO. OF PAGES 1

PLACE  
ACQUIRED  25X1ANO. OF ENCLS.  
(LISTED BELOW)DATE OF INFO.  25X1A

25X1X

SUPPLEMENT TO  
REPORT NO.

THIS DOCUMENT CONTAINS INFORMATION AFFECTING THE NATIONAL DEFENSE OF THE UNITED STATES WITHIN THE MEANING OF THE ESPIONAGE ACT 50 U.S.C. 31 AND 32, AS AMENDED. ITS TRANSMISSION OR THE REVELATION OF ITS CONTENTS IN ANY MANNER TO AN UNAUTHORIZED PERSON IS PROHIBITED BY LAW. REPRODUCTION OF THIS FORM IS PROHIBITED.

THIS IS UNEVALUATED INFORMATION

## SOURCE

1. The administration of Object 2 is located in Oberschlema in the Kurhotel. Chief of Object 2 is Colonel Daniela. His deputy is Capt. Daganoga. One Churin is in charge of material and supply. Lt. Sakalovski is in charge of ration cards. Chief of the Economic Section is Major Korea (Kore). Lt. Dudenko is in charge of kitchens and mess rooms. In January 1949, Object 99 was consolidated with Object 2.
2. The Economic Section of Object 2 maintains approximately ten supply depots and store houses in Oberschlema, and another eight to ten in Zwickau. The central supply depot for Object 2 is located at Niederschlema, Hauptstrasse.

25X1A

Comment: According to previous information, Miliotin is deputy to Daniela, while Daganoga previously given as Taranokhe, is deputy to Miliotin. The chief of the Economic Section was listed as Maj. Karre, who might well be identical with Maj. Korea (Kore), mentioned in this report. The consolidation of Object 99 and Object 2 seems logical and practical. Object 2 has from 14 to 25 shafts under its control and is reported to be the biggest Object, while Object 99 is considered the largest ore dressing plant in the Erzgebirge and is well capable of handling the output of the mines of Object 2. To merge these two Objects should save time, effort and expenses; besides, other ore dressing plants like Object 32 in Tannenbergetal and Object 31 in Lengenfeld may not be able to process ores from Object 2 since they have to work for other adjoining mining objects.
